

EXPERIENCE
A NEW
RELATIONSHIP

Palram and Green-Tek proudly announce the immediate availability of DynaGlas and ThermaGlas polycarbonate glazing products, manufactured by Palram Americas in Kutztown, PA, USA, with conversion and logistic services provided by Green-Tek, Inc., based in Edgerton, WI. Contact your Authorized Green-Tek Dealer for details.

As has been the case for more than a decade, Green-Tek will continue to bring you a variety of complimentary products, including

AT Plastics® and GT Performance™ poly films, Shade Rite™ fabrics, Cover Rite™ ground covers,—and now *DynaGlas & ThermaGlas*—polycarbonate glazing, and more. Manufacturers of

these fine products rely on Green-Tek to help them maximize logistics efficiency by stocking large volumes of their

master rolls, sheets, panels, and related products. Green-Tek's charter is to offer those products to

OEMs, Wholesale Distributors, and Resellers, and to “convert” their

inventory into custom-fabricated goods for a variety of applications

while minimizing waste in ways that are yet to be matched by any

other Distributor in the marketplace.

Green.tek

A leading, full-service, “cut-and-ship converter” of hard-to-inventory goods for the commercial greenhouse, architectural, & construction markets. Green-Tek provides cost-effective, highly efficient warehousing and logistics services, as well as professional sales and service capabilities to manufacturers of such products.

More than 20 years ago, Palram introduced DynaGlas® to the commercial greenhouse market in the USA. It was the first-ever corrugated polycarbonate glazing product. It set a standard by which other glazing products are compared.

Today, Palram is a global manufacturer with factories in Israel, UK, China, and in the USA—Palram Americas. Palram has marketing offices around the world and counts hundreds of highly professional distributors, reps, and resellers as market-specific specialists.

Palram's U.S. manufacturing plant and warehouse supplies a wide variety of PVC polycarbonate products to distributors

throughout North, Central, and South America.

For more than 5 years, Palram Americas sales volume has been growing at a pace that has prompted the company to dramatically accelerate its planned 10-year expansion

of manufacturing capacity—on two separate occasions.

Its warehouse is filled to capacity with new, innovative, and fast-moving products.

In order to facilitate continued growth and expand the level of dedicated

professional support to the commercial greenhouse market, Palram Americas has enlisted the conversion, logistics, and sales services of Green-Tek. Join us and experience a new relationship.
